Veterinary Dental Technician, VTS (Dentistry)

Dallas Veterinary Dentistry & Oral Surgery (DVDOS) is seeking a full-time VTS certified technician in dentistry (or VTS eligible or in training program), with a positive attitude and is a self-motivated team player to join our team.

This is an exciting opportunity for a qualified veterinary technician to work with an elite team of professionals. Specialty practice provides many opportunities to advance your skills through CE, as well as, on the job training in dentistry, anesthesia, and customer service. Our 4-day work week with no emergencies and no weekends allows the opportunity for work-life balance.

DVDOS offers specialty veterinary dentistry for dogs and cats. Our growing practice currently has 2 board-certified veterinary dentists providing services with locations in Grapevine and Lewisville (Dallas / Fort Worth Texas metro area). Our dental specialty practice thrives on providing quality medicine (anesthesia, as well, as dentistry) and exemplary customer service. Our team members enjoy being part of an elite group who love making pets feel better.

DVDOS dentists are supported by an experienced team of customer care specialists, licensed veterinary technicians, a dedicated anesthetist and an exemplary management team. We support strong relationships with our referring doctors and offer frequent small group CEs to nurture current and build new relationships.

DVDOS moved in 2018 to the newly constructed Animal Emergency and Veterinary Specialty Center in Grapevine, TX. The 2nd location in Lewisville, TX is at another large multispecialty hospital, Center for Veterinary Specialty + Emergency Care. Within the two hospital locations, we have a collaborative relationship with internists, criticalists, surgeons & rehabilitation, avian & exotics, ophthalmologists, and dermatologists. Both locations have the high-tech equipment to provide the state-of-the-art diagnostics and treatment for our client's furry family members.

The current position will most likely have a 4-day work week with no weekend or holidays. **BUT** you must be able to work full-time Monday through Friday if needed, without any restrictions. (*If you have to be off work at a certain time, this job is not for you.*) Sometimes we close at 6pm, and other times it may be 8pm.

Salary and benefit package are commensurate with experience.

Minimum requirements:

- VTS certified in dentistry (or VTS eligible or in training)
- Knowledge of anesthesia protocols
- Knowledge of patient monitoring
- Confidence in handling dogs and cats
- Is a strong communicator
- Has compassion and a strong work ethic
- Positive and reliable with attention to detail
- Ability to follow instructions but able to think “outside the box”
- Outgoing personality, and a customer service friendly attitude

Benefits

- Health insurance
- 401(k) retirement company matching contributions up to 6%
- Profit-sharing bonus
- Paid vacation
- Most likely 4-day work week
- No weekends or holidays
- Employee discount includes 1 free dentistry procedure per year for your pet

As a doctor, privately owned practice, we encourage a collaborative atmosphere where feedback is supported without the multiple layers of corporate bureaucracy.

Please contact Debra Nossaman, DVM, DAVDC (Debra.Nossaman@DallasVeterinaryDentistry.com) or Tony Nossaman (Tony.Nossaman@DallasVeterinaryDentistry.com) for questions and to send resume. Feel free to call the office if needed at 817.431.8451.
