Hours:

Description of position: (include experience requested, wages, hours, duties, etc.)

Whether you are looking to acquire your VTS, begin speaking at CE events and conferences or have been there done that and are just needing an environment change, Pet Dental Center can help support you in achieving any or all of the above. We are the only clinic in southwest Florida with a Board Certified Veterinary Dentist and offer a positive and growing environment that you won't experience just anywhere. It is our goal to work with you to achieve your goals personally and professionally. At PDC we offer more than just "toothanasia". You will contribute to offering advanced dentistry techniques like root canal therapy, bone grafts, perioceutic treatments, orthodontics and more. We also offer a wide range of maxillofacial surgical services including multiple approaches to a jaw fracture repair, surgical removal of oral cancers, stenotic nares repair and elongated soft palate reduction. If surgery and dentistry interest you, read more about the difference we can help you make in your personal life too! Pet Dental Center is all about working with a team that encourages and supports each other in critical thinking while feeling appreciated by management and doctors. Your schedule will consist of working four days in a row with three days off (Whhaa?!). Oh, and forget about all that on call stuff. We strive to encourage our team to have a happy balance of work and home life and believe in taking care of our team's individual needs. At PDC, we are open to catering each team member's benefits package to what best fits their lifestyle. Base benefits on top of compensation include:•Health Insurance•Continuing Education allowance•401k and Profit Sharing•PTO and Holiday Pay•Local gym membership•Reimbursements for licensing renewals and membership dues•Annual Uniform Allowances. We are seeking an enthusiastic veterinary technician that truly "geeks out" about teeth and surgery. PDC is looking for a committed, motivated individual who will pursue our unrivaled level of patient care and enjoys contributing to the elevated client experience that is the PDC standard. We value the importance of having state of the art equipment that allows us to be most efficient and encourage our team to contribute to new ideas on how to execute that. This role is ideally filled by a VTS in dentistry or someone that is actively or desiring to work towards their credentialing. We are open to considering a certified technician who has at least three years' experience in assisting in dental procedures. Our ideal cultural fit is the individual that is humble, wanting to grow, highly values client connection and teamwork and is passionate about improving the lives of pets, one tooth at a time! We live in an amazingly beautiful area! Desirable areas come along with higher costs of living. We believe the less stressed you are outside of work, the happier you will be AT work. That being said, we proudly compensate our team members competitively. Let's get to know each other if this position interests you! Please send your resume and cover letter to Danielle, our Practice Manager, at Danielle@petdental.center.

Posting date: Dec 12, 2019
